Length Waterline	45.15m
Beam	14.8m
Design Draft	3.2m
Displacement	400 tonnes
Cruising Speed	13 knots
Crew	11
Guests	11

The 46m shadow vessel recently commissioned by Evolution Commercial, in alliance with sister company Echo Yachts, has been built with cutting edge laminates and building processes. Charley is the largest ever vacuum infused vessel built in Australia, and also one of the largest GRP vessels ever to be built in Australia.

Built to be a shadow vessel for the 84 metre superyacht White Rabbit Golf, the vessel boasts a decompression chamber, helipad, and six tender vessels (including a 12 metre catamaran).

The vessel, powered by two 2700hp Cummins diesel engines reached a top speed of 20.5knots during commissioning trials.
